

JOAO VICTOR BARBOSA GOMES

Business Analyst | Data Analyst

Email: victorbqomes23@gmail.com | Phone: +1 (407) 663-8888 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Business Analyst and Data Analytics professional with experience across insurance, retail, and financial services, specializing in Python/SQL automation, real-time dashboarding, and workflow optimization. Proven record of turning complex, multi-source data into dashboards and processes that cut manual effort and speed up decision-making for cross-functional teams.

EDUCATION

Denison University | Granville, OH

Bachelor of Arts in Data Analytics

Honors: Dean's List, Chi Alpha Sigma, Liberty League All-Academic Team

May 2025

GPA: 3.6/4.0

TECHNICAL SKILLS

Programming: Python (Pandas, NumPy, Scikit-learn), R (tidyverse, caret), SQL (PostgreSQL, MySQL), Excel (VBA, advanced formulas)

Business Analysis: Agile/Scrum, Jira, requirements gathering, stakeholder management, process mapping & workflow design

Tools & Visualization: Tableau, Power BI, Git/GitHub, Jupyter, VS Code, statistical modeling, predictive analytics

Languages: Portuguese (native), English (fluent), Spanish (conversational)

PROFESSIONAL EXPERIENCE

Business Analyst | Property Insight (an FNF Company) | Orlando, FL

Feb 2026 – Present

- Build and maintain a real-time Python dashboard refreshing every 15 minutes, visualizing data gaps across 400+ counties for 8 analysts and leadership and reducing manual monitoring time by an estimated 10+ hours per week across the team
- Design workflows to analyze and consolidate related county subcodes into unified groupings, simplifying data structure and reducing redundant records across the portfolio
- Partner cross-functionally with adjacent analyst teams using Agile practices and Jira to translate raw discrepancy data into clear, actionable visual reporting for leadership

Data Analytics Consultant | White Cap | Remote

May 2024 – Dec 2024

- Engineered an automated product-matching system using Python/SQL that reduced manual work time by 60%, processing 10,000+ SKUs across acquired companies
- Designed 5 interactive Tableau dashboards tracking SKU consolidation and pricing variance, enabling real-time M&A integration decisions
- Created data documentation and standards that improved new team member onboarding efficiency by 40%

Teaching Assistant | Denison University Data Analytics Dept. | Granville, OH

Jan 2024 – May 2025

- Supported 90+ students across statistics and analytics courses through weekly office hours and mentorship in R, Python, and SQL, while redesigning survey workflows that improved response rates by 22% and data completeness by 30% across 5 academic departments

Data Analytics Intern | XP Bank | São Paulo, Brazil

May 2023 – Aug 2023

- Optimized SQL queries extracting 200,000+ financial records, improving retrieval speed by 45% and eliminating manual errors
- Developed automated data quality scripts identifying pricing inconsistencies in 3% of fund reports, preventing client-facing errors
- Collaborated with portfolio managers to create data-driven briefs distributed to 5,000+ clients

PROJECTS

E-Commerce Customer Analytics Portfolio | [GitHub](#)

- Built an end-to-end analytics project analyzing 540,000+ transactions from a UK-based online retailer
- Performed RFM segmentation, cohort retention analysis, CLV prediction, and churn modeling
- Identified high-value segments driving the majority of revenue and quantified churn risk
